A Valken clone with mouse aiming. Good for a few hours. I recommend Gigantic Army over this, though.. Awsome fun 1-day game really enjoyed. Good level design, appealing to look at, with a nice soundtrack. Considering how inexpensive it is. I had a really good experience playing this.. Such a classic game! :D. This game is f...n awesome. I love what they do with the music, at times it feels like you are in an interactive audio visualizer. You die a lot in this game, but you are thrown right back in, and when you finally manage to cross that crazy section that seemed impossible, it feels great. In some ways, it's like A Crow in Hell on steroids (it's a flash game where you also have to navigate narrow corridors and avoid all kinds of contraptions, but the mechanics is a bit different). I like this game more, though.. A truly stellar racing game. The sense of speed is the best I have ever seen from an on-wheel racer, and the beautiful, well-designed tracks are a joy to race on. Fans of arcade racing games owe it to themselves to try this.. i love this game its so much fun!. Reimu still cute I recommend diz game guys. 50V10 Would knock a skull backwards into my own goal while it laughs at me again.. I purchased this for the classic "brick-breaker" type gameplay, but I fell DEEPLY in love with the game's music, which is some of the best music I've ever heard in a video game in years. The powerups are well-balanced and there's plenty to do after completing the story mode.

Boriskarloff pretty much nailed it on the head. No save feature so you have to beat the game in one playthrough without dying. 1V10. This is a casual farming game that draws heavily from "The Little Prince". It's endearing, accessible and isn't going to put too much stress on your gaming reflexes.

If you feel like kicking back with an easy-going title this is the game for you. It starts off a bit slow but does pick up over time. The game involves combat and also includes a smattering of narrative, but nothing overly-involved or tedious.

Overall, provided you're in the market for a casual and easily-accessible farming and crafting game, Deiland gets a thumbs-up.

Check out the game in action and my full first impressions here - <https://youtu.be/111BHgV4srE>. It is a reasonable good looking game! It is a nice game! And it was also nice if you can play with a gamepad!. Fatal Fury fan since the 90's. Akira did a great job with this rendition of Terry.. If only it was this simple.

[still . quite enjoyable.](#)

[.\\*\\*\\*\\*\\*DO NOT BUY ABANDONED BY DEV!!!!\\*\\*\\*\\*\\*](#)

[I was excited for this game, it looked like it would be awesome in the end.... but instead Dev failed, changed the games name, gave us a turd sandwich, and moved on to other projects... so new turds to come... i left my original review so you all could see the contrast, of what might have been if the dev kept there work ethic to a standard of integrity.](#)

[\\*\\*\\*\\*\\*\(original ravier on first week of buying game\)\\*\\*\\*\\*\\*ok i have spent a few hours in here, no servers so its only single player ATM, looks good, visually stimulating good use of color and lighting, the modles seam, well ... lacking, animations basic, skins no exsistant, games in pre pre pre pre alpha ??? there is basicly nothing to do, collect loot, manage the broken combat system, respawn, save loot buy stuff, upgrading armor seams to do nothing, and all the wepons feel like they do well, the same damage, seams like there is alot more to come, youre just paying to suport dev team... ehh im a fan of indie so good luck dev's, i hope loot finds you the goals you need to finish... lmao, my broken english, and bad review, only giving a thumbs up in suport, and i like the art direction so far... cant wait to see more.... A total Mess, very bad controlls, even the menus are almost imposible to use.](#)

[Don't worth your time even if it was free](#)

[Edit 24V06V2018:](#)

[Still broken, can't move, can't holster pistols, so I have to quit after 2 min.](#)

[But now it's free, yso you can try it yourself .... Very little engagement from the developers. Not exactly what you want when you spend your money to support the devs asking for input.\u2665\u2665\u2665\u2665\u2665poor... nothing about the game is good.](#)

[. Actually quite a beautifully atmospheric soundtrack. Manages to sound both melancholy and menacing.. This is a fun little game about running a gun shop in a zombie post appocalypse. Success on trades is determined in a manner similar to the old golf games where you click a meter at the right time. Buy low, sell high, higher mercs, bribe generals, Zombies attack your gun store, so you have to maintain defenses.](#)
